

What is Water Ski Racing?

Water ski racing is a high adrenaline action packed family oriented water sport. Water sport enthusiasts of all kinds are encouraged to get involved. Mom, dad, kids, aunts, uncles, friends, etc. can all take part on the same team.

The NWSRA sanctions events in the United States at lakes, rivers and ocean locations along the West Coast. Courses range in size and shape, with long sweeping turns around 3 buoys. Water conditions vary. Starts are made at a dead water fashion.

There are Novice and two different Social classes available for beginners. Each division is divided up by entry level, age or boat class to offer as much comparative competition as possible.

Marathon events range between 35 to 65 miles in length with a Mini Marathons running approximately 25 miles. Circle or sprint racing takes place on approximately a 2 mile oval course.

21' Nordic Cyclone SR
192 Race Boat at start of race in Pittsburg California.
Driver: Randy Davis - Observer: Dennis Hall

21' Cyclone SR • Ski Race Series

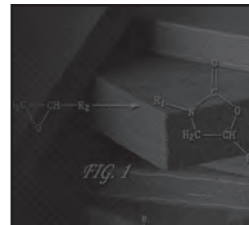

Our 21' Nordic Cyclone Ski Race Boats have a successful running plank and dead rise angle in its hull design that are proven in rough water conditions. We designed this boat specifically to handle rough water ski racing and it can hold its own in open water.

With many titles to its name, the 21SR design has truly exceeded all expectations. With better handling and increased stability due to the extra wide chines, the 21SR will land soft every time, even when put through the riggers of offshore power-boating.

All Nordic Boats are built with full composite construction; closed cell foam coring, vinylester resins and all the finest materials.

Overall boat length	21'
Beam length	84"
Approximate weight	3,000 lbs
Fuel capacity	40 - 100 Gallons
Deadrise at transom	18°

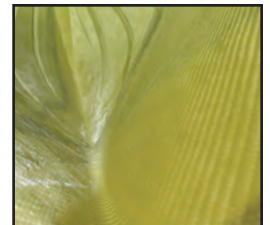

Choose Standard, Sport or Full Race Kevlar/Carbon Lay-ups. Wood Free construction translates into a stronger yet lighter and faster.

High Density Foams.

- Billet aluminum grab handles
- Stainless steel four blade prop
- Livorsi shift/ throttle

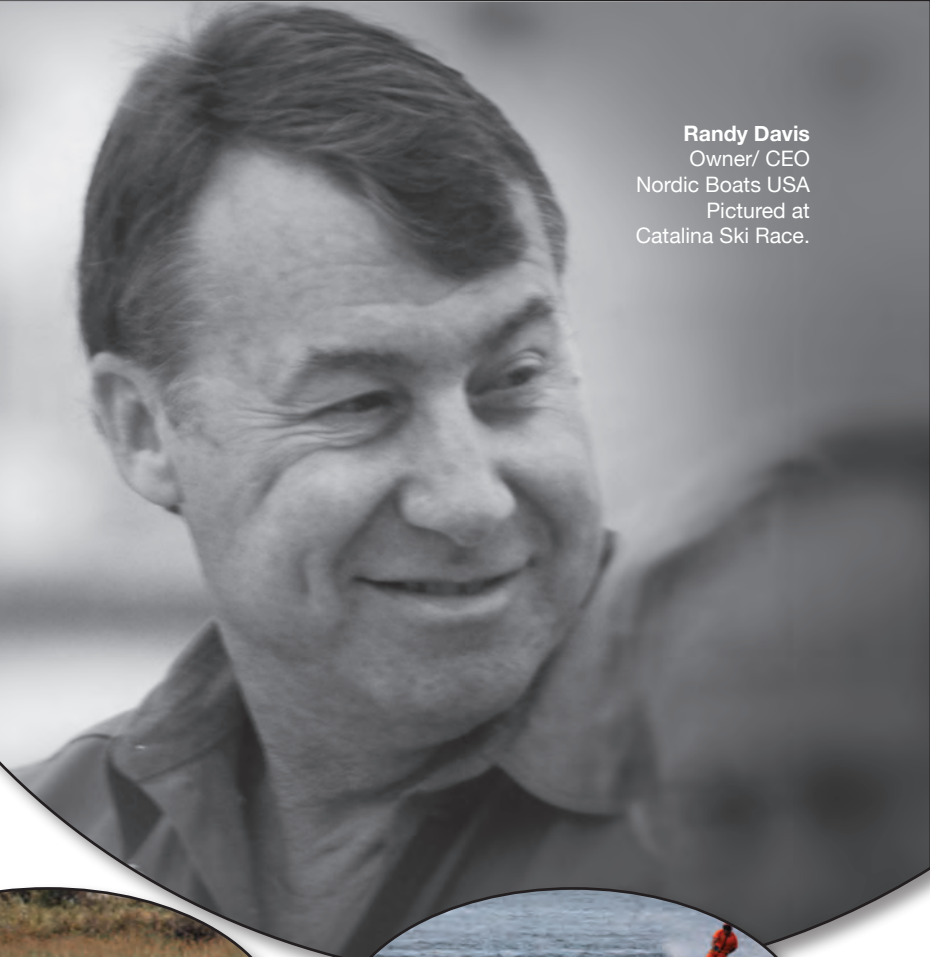

Racing is in our blood

Since the conception of the company in 1962, Nordic boats has been building race boats and building them well. In 2005 Randy Davis purchased Nordic Boats from the founder and original owner.

Randy Davis brought with him his passion for boat racing and high speed ski racing.

Power Packages:

- Mercury 525 EFI - XR's
- Mercury 525 EFI - #6
- Mercury 600 SCI - #6
- Mercury 700 SCI - NXT
- Mercury 850 SCI - #6
- Mercury 1075 SCI - #6
- Other Custom Engines
