

2014:24

WE ARE TAKING THE LEAD WITH THE

INTRODUCTION OF OUR NEW 24SX AND IT

IS TRULY AN EXCITING BOAT TO DRIVE!

SOPHISTICATED IN DESIGN AND EXECUTION.

NORDIC

2014: 24SX

24SX I/O: Poker Run & Race Series

There are leaders and there are followers... Nordic has always lead the pack in performance boat design and styling. Once again, we are taking the lead with the introduction of our New 24SX and it is truly an exciting boat to drive!

This boat embraces a level of sophistication in design, execution, and substance that is impressive at every level. The sculpted glass cockpit is splendidly shaped, contoured, and cantered to specific tasks. It surrounds and envelops the driver, making him the center of its magnificent universe. Overtly angled switch and gauge panels and shapely pods, a tasteful and dazzling array of beautifully orchestrated interior billet; all contribute to the overwhelming sense of something extraordinary.

Notes
