THERE ARE LEADERS AND

THERE ARE FOLLOWERS...

WHICH ONE ARE YOU?

THE 35 FLATDECK IS

LEADING THE PACK IN

PERFORMANCE BOAT DESIGN

AND STYLING

35 SS Flatdeck

There are leaders, and there are followers... Nordic has always lead the pack in performance boat design and styling. Since its introduction, the progressively designed 35 SS Flatdeck, has taken the lead and it is indeed an exciting boat to drive!

This boat embraces a level of sophistication in design, execution, and substance that is impressive at every level. The sculpted glass cockpit is splendidly shaped, contoured, and cantered to specific tasks. It surrounds and envelops the driver, making him the center of its vast universe. Overtly angled switch and gauge panels and shapely pods, a vibrant and dazzling array of beautifully orchestrated interior billet; all contribute to the overwhelming sense of something extraordinary.
