

26 Deck Boat: Family Performance Catamaran

The deck boat market is one of the fastest growing segments of the marine industry for a good reason - the 26' Deck Boat offers more interior room and amenities than other boats while capturing the style and performance of a ski boat. This boat is designed to enhance family outings with an incredible array of special features.

Long flowing exterior lines lend a dramatic flair to the Nordic 26' Deck Boat. Wait until you step aboard, the interior is unmatched in luxury and efficiency by any other deck boat on the market. Up front, there's a roomy lounge-seating ensemble to provide exceptional comfort for passengers. Other interior features include a built-in privacy enclosure, ergonomic console with wraparound split windscreens, and the signature molded swim platform. One look and you will see why the 26' Nordic Deck Boat is one of the most beautiful boats on the market today!
